Use of Outdoor Grills

There is nothing like grilling outdoors with family and friends. But everyone must take safety seriously by following some simple tips.

01. Propane and charcoal BBQ grills should only be used outdoors.
02. Never leave the grill unattended.
03. Keep children and pets at least four feet away from the grilling area.
04. The grill should be placed away from the home, deck, railings and overhanging areas.
05. Never place a grill on a wood deck.
06. When igniting your grill, open and leave open the lid.
07. Check the gas tank hose before using the grill for any cracks or loose connections. If you smell gas, shut of the tank off and seek assistance from a qualified service representative.
08. If using a Charcoal Grill, always use approved starter fluid.
09. Never add starter fluid or other flammable gas to the open flames.
10. When finished using the charcoal grill, let the coals completely cool before disposing them.
11. Never dispose coals in a plastic container. Use a metal container and don't place trash on top of the disposed coals.

Each homeowner / occupant is asked to check all home smoke detectors in their dwelling for operation. For a FREE smoke detector, kindly contact your local Fire Department.

Respectfully;

Paul C. Sandrock Jr.
Chief Fire Marshal
County of Camden
